Smoke Detectors

The statistics on the loss of life and property due to fire are grim. However, there is an inexpensive and dependable way to protect your home, your self, and your family—SMOKE DETECTORS. They provide a reliable early warning system in the event of fire. They are most valuable at night—alerting family members to the presence of fire when they are asleep.

YOUR SMOKE DETECTOR IS PART OF A TOTAL ESCAPE PLAN

Over 8,000 deaths occur in homes or apartments each year. Most people do have SMOKE and basic escape rather than that. Many never even wake up.
