To: All SWSAD Officers, Players, Committees, and Fans:

On the behalf of SouthWest Softball Association of the Deaf, my gratification as SWSAD Commissioner is to welcome you all to our regional 36th Annual Men's and 29th Women's teams in Houston, Texas on July 10-12, 2003.

Congratulations to Billy Koch and his hard working committee to ensure that this tournament is a big reality and success. As far as I can remember since 1980, the tournament was always during the month of August, and July is the hottest month of the year and it is not easy to get the fields during the month of July since all over the America, City leagues are still playing. Billy worked too hard to get the fields for our tournament and he deserves this gratitude from all of us.

My motto is: Teamwork is the road to success. I believe if we all work together for the betterment of SWSAD and it will become more successful.

I wish all the teams best luck for championship and represent SWSAD at NSAD on August 14-16, 2003 in Clearwater, Florida.

Have fun during the weekend of SWSAD Tournament and please drive back safely home!

SWSADically Yours,
Patty Henderson
SWSAD Commissioner

**Sorenson
VRS**
Video Relay Service

High-Quality Video Relay Service

Communicate Instantly with Anyone

Sorenson Media™ is pleased to announce Sorenson Video Relay Service™ (VRS) for the deaf and hard-of-hearing community. Sorenson Media, together with Gallaudet University Interpreting Services, offer American Sign Language (ASL) users a world-class video relay solution that is convenient and easy to use.

Sorenson VRS differs from other video relay solutions by delivering the highest-quality video. Sorenson VRS exclusively uses the Sorenson VP-100™ (videophone appliance) or Sorenson EnVision™ SL™ (video relay software for sign language users), which eliminates grainy images, jerky playback, or complex technology to install. Sorenson VRS also supports Microsoft® NetMeeting®.

Using either the Sorenson VP-100, Sorenson EnVision SL software, or NetMeeting software, deaf and hard-of-hearing users are able to place calls to family, friends, and business associates through an ASL interpreter. The Sorenson VRS Call Center, which was specifically designed to handle video relay calls, intelligently routes the incoming call to professionally certified relay interpreters.

Sorenson VRS captures the facial expressions, gestures, and emotions that are so vital to visual communication as the interpreter relays the messages between the two parties. Conversation flows instantaneously between callers, making it possible to communicate as naturally as possible.

Start Using Sorenson VRS Today

1. Go to www.sorensonvrs.com to sign up for a free Sorenson VRS account. All video relay calls placed through the Sorenson VRS Call Center are free of charge.
2. Select and install a video relay solution (Sorenson VP-100, Sorenson EnVision SL, or Microsoft NetMeeting). The Sorenson EnVision SL software is free to anyone and can be downloaded once a Sorenson VRS account has been established. For deaf and hard-of-hearing users who meet licensing guidelines and place more than 30 minutes of Sorenson VRS calls each month, a Sorenson VP-100 is available at no charge.
3. Learn how to place a video relay call with the solution of your choice by reviewing the directions found at www.sorensonvrs.com. Then, start using Sorenson VRS today!

The Sorenson VRS Advantage:

- Professional interpreting services provided by Gallaudet University.
- High-Quality video images generated by the Sorenson VP-100 or Sorenson EnVision SL capture all facial expressions and gestures.
- A state-of-the-art VRS call center quickly routes each in-coming call
